Sir,

Recd
with B.4
Jner

In continuation of my letter of the 20th instant from Goribidnur regarding the condition of affected areas in this - - district, I have the honour to state that leaving Goribidnur on the 23rd instant I arrived here the same day and I have completed the inspection of this taluk. My letter of the 20th was written after the moderate rainfall of the 18th and before the more copious - - precipitation of the 21st and 22nd instants. The rainfall of the last mentioned date was general through out the district and has greatly improved the prospects even in Goribidnur and Bagepalli, as the crops which were about to die may yield something and many of the tanks have received a fortnight's to two months' supply.

2. During the past few days I made a detailed inspection of the interior villages of this taluk and though on the whole the crops may be said to be in a very good condition in the Kasaba and major portions of Gooloor hoblies and in a fair condition elsewhere, there are about 40 villages in which the cooly classes can find no - - employment and are in urgent need of relief. This is due to the - exhaustion of resources owing to the unfavourable conditions of last year and the absence of weeding or other operations owing to the prolonged drought in August-September. Some Village and Road - - Road works have been started in central villages and gratuitous - relief also is given in deserving cases out of private charity.

3. As a result of the rains of last week I wish to make the -

following modified proposals for the sanction of Government:-

(1) As tank maintenance works can not be taken up in many places owing to the existence of water in the tanks a sum of Rs.5,000/- instead of Rs.10,000/- asked for in the letter of the 20th may be placed at the disposal of the Executive Engineer for tank maintenance, restoration and feeder works in this district.

(2) The sum of Rs.5,000/- for Village Roads asked for is very necessary as this is the only means of giving employment to people in many localities

(3) The sum of Rs.500/- asked for for gratuitous relief will also - - stand sanctioned

(4) The Village Improvement and takavi grants already asked for (after deducting grants made up to date, namely, Rs.4,595/- for takavi, namely, Rs.4,000/- and Rs.15,400/- respectively may also be sanctioned.

4. I have carefully considered the requirements bearing in mind the - wants of the people on the one side and the need of economy on the other. I also append a modified and reduced list of tank works which may have to be taken up.

5. As the rains have restored fairly normal earthern conditions in - Chitaldrug taluk and Gulibenda and Molakalmuru taluk the works proposed in these taluks have been eliminated and even out of the remaining I am proposing for sanction only those works which are absolutely necessary will be taken up and works will be stopped, if possible, as soon as the necessity - disappears - say, owing to approach of harvest etc.,

6. I request the favour of your obtaining sanction of government at an early date. I am glad to add that the prospects in all the other taluks except portions of Hiriyur and Hosdurga are excellent.

I have the honour to be,

Sir,

Your most obedient servant,

SIR

In continuation of this office memo No.D.26/23-24 dated 22nd September 1924 forwarding in original letter No. dated 20th September 1924 from the Deputy Commissioner,Kolar District, requesting sanction for starting some tank maintenance works and also some additional grants under Village Improvement,Takavi,Village Road Works and Gratuïtous Relief, I have the honour to forwarded herewith copy of letter No. (Camp Bagepalli) dated 27th September 1924 from the same officer submitting for sanction certain modified proposals as the rainfall which was general throughout the district has greatly improved the prospects even in Goribidnur and Bagepalli Taluks. The crops which were about to die are now ~~attended~~ expected to yield something and some of the tanks have received nearly two month's supply. But about 40 villages in Bagepalli Taluk are in urgent need of relief as the cooly classes can find no employment there due to the exhaustion of resources owing to the unfavourable conditions of last year and the absence of weeding and other operations owing to the prolonged drought in August-September this year.

As the conditions have now improved, a sum of Rs. 5000/- only instead of Rs.10,000/- is required to be placed at the disposal of the Executive Engineer for tank maintenance

restoration and feeder works. The sums of Rs.5000/- for Village roads Rs.800/- for gratuitous relief Rs.4000/- and Rs.15,400/- under Village Improvement and Takavi respectively are stated to be very necessary. The number of tank maintenance works to be started is reduced from 16 to 13 as noted in the enclosed list. It is reported that the works will be stopped as soon as the necessity disappears, owing to approach of harvest etc and only those that are absolutely necessary will be taken up.

In these circumstances I request that sanction of Government may kindly be accorded to the proposals of the Deputy Commissioner. As a sum of Rs.10,000/- under takavi and Rs.300/- for gratuitous relief are sanctioned in Government Order No.198-200/D. dated 25th September 1934, these sums may be deducted from the amounts now applied for.

SIR,

With reference to Revenue Secretary's letter No.234/Dis. dated the 10th instant a copy of which has been sent to this office, in the matter of renewal a month hence of proposals, if necessary, for additional funds in the Kolar District, I have the honour to - state that fresh proposals will be submitted a month hence in - - respect of tank maintenance works as directed in the Revenue - - Secretary's letter under reference, and even as regards additional allotment for takavi, I shall manage for the present with the - available amount. But with regard to the funds asked for for Village - - Improvement and Village Road works I may state that these amounts (Rs.4,000/- and Rs.5,000/- respectively) are absolutely necessary and may kindly be sanctioned as otherwise there would be much hardship to provide employment to the people - especially Panchamas - in parts of Goribidnur and Babepalli taluks where crops have totally failed and where there is a clamour for work. An additional - allotment of Rs.500/- for gratuitous relief is also very necessary. The conditions of the people will deteriorate if works which have been started are stopped.
